ABOUT ME

I am a hard-working, self-motivated individual and strive to achieve my best in all tasks set in front of me. I enjoy being part of a team and believe I bring with me numerous beneficial attributes. Additionally, I don't give up when faced with difficulty, I persevere to overcome whatever situation is dealt to me. I am currently in my third year of studying towards a Bachelor of Computing and Mathematical Sciences, thus far having an A grade average. I have a passion and drive for technology and am constantly learning new concepts, frameworks and practices in my own time, working on several of my own projects (which can be provided if interested).
